DLF-MINI
DIGITAL LABEL FINISHERS

Tabletop Digital Label Finishers

Cut any shape digitally, without the use of dies

The DLF-140S (max 140mm width) and DLF-220S (max 220mm width) are small-footprint versions of our full-size label finishers, designed for tabletop use.

Ultra-precise cutting abilities easily produce beautiful full-bleed labels without a need for costly dies. A digital cut file guides the DLF's plotter as it converts uncut, continuous-printed media into fully-finished labels.
